NEW ADHESIVE TAPE - TOTALLY REWORKED POINT OF SALES

INNOVATIVE CONCEPT FOR ADHESIVE TAPES

Choosing the right adhesive tape often seems like looking for a needle in a haystack. Our new smart POS for adhesive tapes leads your client fast and easily to the ideal troubleshooter for his project.

With appealing application images on the shelf panels and a color guidance system structured according to application areas, which can be found on all POS elements, the customer intuitively is guided to the right product.

The optimal merchandise supply consists of a mixture of hook hangers for premium products and the basics in attractive, informative sales cartons.

- 1 The mako colour guide separates the applications masking, building, flooring, packing, repair and household

Masking Everything about masking for painting work	BUILDING Professional helpers in building and plastering
FLOOR LAYING Double side adhesive tapes for carpets	PACKING Easy and safe packing of parcels
REPAIR Reliable repair and bundling	HOUSEHOLD Useful helpers in home and garden

- 2 The shelf panel with its big application photo intuitively leads to the right product

- 3 Horizontal information panels attract client's attention to particular high quality products.

 Reparaturband Hohe Klebkraft auf fast allen Oberflächen PREMIUM ★★★★★	
✓ Zum Reparieren, Verstärken, & Abdichten ✓ Zum Abkleben auf rauen Untergründen wie Stein & Putz ✓ Extras stark klebend & leicht abreißbar	 200 cm x 10 cm x 10 mm <

- 4 Hook hangings, pendant pockets with application pictures, color guide codes and short, concise product information offer a great deal of security to the customer in choosing the right product.

- 5 Attractive sales boxes with application information and product benefits specifically help the client to make his purchase decision

- 6 Symbolic images of the application area, guide colors, multilingual application instructions and the new new 3-step quality labeling as well as imprinted inner cores make the product packing easy to understand.

ADHESIVE TAPES

NEW

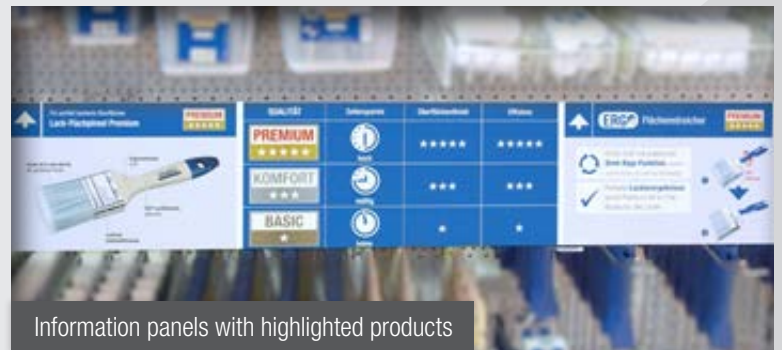

INTUITIVE CUSTOMER GUIDANCE – SECURE PURCHASE DECISION

Fast orientation and optimal customer guidance are most essential to get satisfied customers. Tests prove the best: using the proper guiding system, your customers do not only buy more, but also higher quality.

- 1** The mako colour guidance system clearly structures the POS by the main applications wall & facade, all kinds of lacquers and all kinds of woodcare agents.
- 2** Head panels in the guiding colour with eye-catching photos of application intuitively lead to the right application purpose.
- 3** Horizontal separators in the guiding colour offer additional orientation and lead to the product category.
- 4** Horizontal information panels attract client's attention to particular high quality products.
- 5** Information panels on the roller baskets show the customer the right painting tool for his working surface.
- 6** Pictograms showing the kind of application, guiding colours and a new quality information make the product packings easy to understand.

FOR ALL KINDS OF LACQUERS

Flat brushes	10 - 11

Block brushes	14
Rollers for lacquering	15- 17
Strip-off grids.....	17

Painting tools for all lacquers

Following brushes and rollers can be used for solvent- as well as for waterbased paints

mako all in one-bristle – awarded for all kinds of lacquers

The mako all in one-bristle is our response to the steady R & D in the field of paints to match the European VOC-guidelines. With just one brush, you can paint all standard acrylic paints and synthetic enamels.

All around handles – ergonomic. Multifunctional.

Our brush series ERGO 2K was developed to offer our clients the optimum in terms of function and ergonomics.

Shape and material had been in the focus of our consideration.

Thus we created a brush enabling you to paint safely and cosy for hours and hours without tiring at all. Some smart details like the tin opener with scratcher supply additional value to the tool.

Varnishing flat brush – tested by „selbst ist der Mann“

If I had a hammer ...

Our flat brush with ERGO handle and all in one-bristle was awarded not with only one, but with five hammers by the DIY-periodical "selbst ist der Mann": Simply the best.

FOR ALL WOOD GLAZES

Flat brushes	27
Radiator brushes, etc.	28
Block brushes	29 - 30
Rollers.....	30 - 31
Special application	32

Painting tools for all wood glazes

The following brushes and rollers can be used for solvent- as well as for waterbased wood glazes, protection paints and oils.

The mako all for wood-bristle stands for excellent glazing results

The all for wood-bristle is our response to the steady R&D in the field of wood glazes to match the European VOC-guidelines. With just one brush, you can paint each kind of water-and solvent based glazes as well as wood protection agents.

Further advantages of this new developed synthetic bristle mix are:

- 1 No break of bristles & no swelling due to flexible **all for wood**-synthetic bristles
- 2 High paint intake & homogeneous **paint distribution** due to **bristles with capillary effect**
- 3 The optimized synthetic bristle mix proves excellent glazing results **& a long reach**

Bigger diameter – higher reach

PREMIUM-ROLLERS NOW WITH INCREASED DIAMETRES

All Premium-rollers with synthetic coating now come with an increased core diameter of 56 mm. Clear advantages thereof:

- 1 Higher paint input per turn
- 2 Higher reach due to bigger diameter
- 3 Almost splash-free rolling due to lower turning speed

With our optimized info inserts, your clients see on the spot for which surfaces the roller can be used for.

Paintrollers for smooth surfaces

Following rollers are for smooth surfaces such as concrete, smooth fleece wallpaper, drywall fair faced plaster, etc.

Winner award by the DIY-magazine „selbst ist der Mann“

Within five categories the editorial office preselected three items each to present them for the election "reader's award 2018 „selbst ist der Mann“, a German DIY-periodical.

About 3000 readers voted for their individual favorite in the fields of living, construction, handtools, electric tools and garden.

Product of the year

Our plug- and switch masking foil was elected "Product of the year 2018" in the category "construction".

More than 200 products had been tested and judged in 2018 by the DIY-magazine „selbst ist der Mann“. In edition 5/2018 our product received the award EXCELLENT - 5 hammers.

8.0 x 10.0 m	8369 18	1	3	4 002168 836640

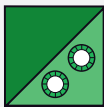

5 years warranty

When used as intended
5 years warranty upon UV-resistance.
The plastic material in use avoids weathering for many years. For sure!

„Selbst ist der Mann“

The DIY-magazine „Selbst ist der Mann“ submitted ELITE-tarpaulins to an internal test and judged them as "excellent".

Reinforced edges

The triple reinforced edges assure highest tensile strength

Eyelets system

Twice as many eyelets as most of the standard tarpaulins. Advantage: More eyelets, better tensioning

Waterproof

The heat sealing of the different layers makes it 100%-waterproof - for years!

True size vs. Cut size

In true size, a tarpaulin 3 x 4 m is real 12 m². In contrast, cut size means that the hem is deducted (That means actually almost 1 m² less in area with a 12 m² tarpaulin!)

Point of Sales-presentation

ELITE tarpaulin stand

- Available upon request for initial equipment
- Harmonized and clear presentation
- Optional lateral placement of lashing cord and tarpaulin fasteners
- Mobile wheels allow individual positioning in the shop

Brochure for consumers

- Ideal advisory support and decision making aid for consumers
- Free brochure available
Item no. 8369 01D (PU = 25 pcs.)

Sample

- A sample of the sturdy eyelet is integrated in each packing.
- Convince yourself of the top quality!

The flexible solution –
without visible
screws

Clip-Trims

- For all floor coatings
- Flexible reducer- and fitting trim
- Turning axes levels out differences in height up to 16 mm
- Elegant design – invisible screws

Hightech-Nylon do-
wels for safe,
long-lasting hold

To mount (by glueing or
screwing) onto
basis trim, ideal
for heated floors

The simple solution
no screws, no drilling

Self-adhesive trims

- For all floor coatings,
except long-hair carpets
- Transition- and angle trims

Fast and simple
assembly: Remove foil.
Press trim onto ground.
That's it.

Permanent hold with
high-quality-, non-
shrink glues

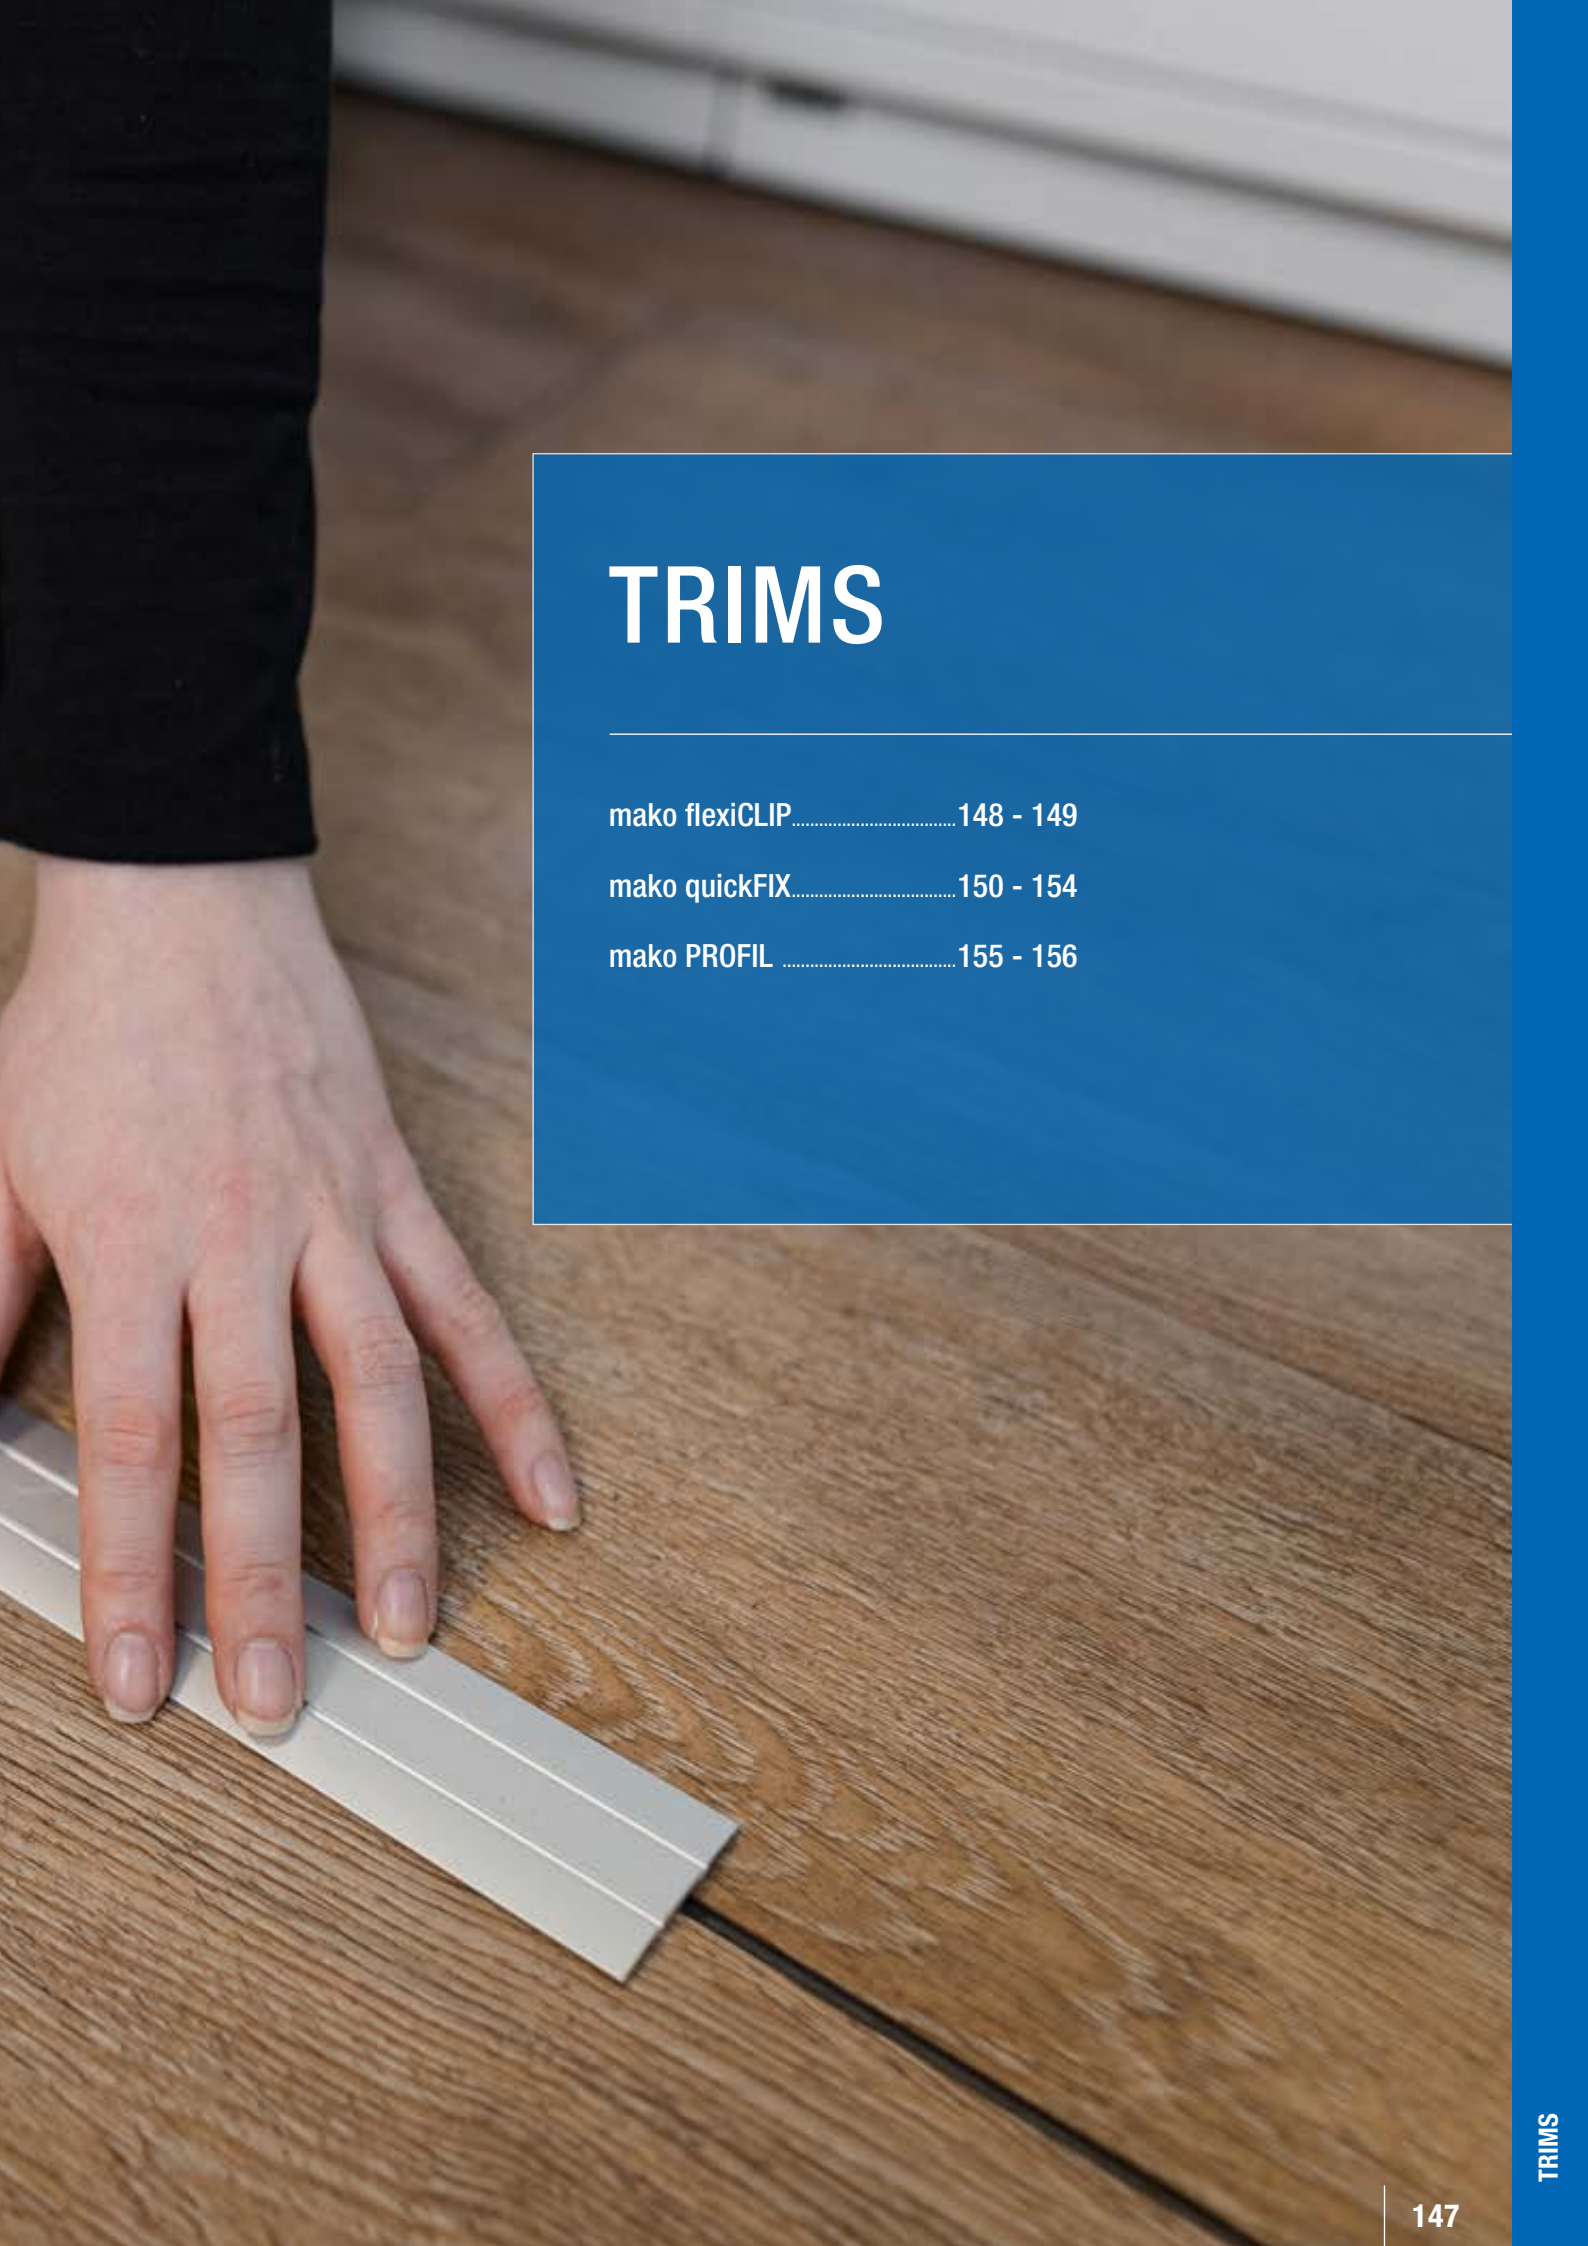

The classic to
screw

Screwing trims

- For all floor coatings
- Transition-,
end-,
angle- and
stair edge trims

Anodised drill holes
Screws & trims in the
same colour

A close-up photograph of a person's hand holding a long, silver-colored metal trim piece over a light-colored wooden floor. The hand is positioned on the left side of the frame, with fingers spread to hold the trim. The trim piece is held parallel to the floorboards. The background is slightly blurred, showing more of the floor and a white baseboard at the top.
